Subject: Microsoft Settlement

I do not think that the Proposed Final Judgement in this case is in the public interest.

It doesn't take into account Windows-compatible competing operating systems.

It contains misleading and overly narrow definitions and provisions.

It fails to prohibit anticompetitive license terms currently used by Microsoft.

It fails to prohibit anticompetitive practices towards OEMS.

I hope that you will address these issue before reaching a settlement.

Sincerely,

Mangala Sadhu Sangeet Singh Khalsa
